

November 10th, 2016. Autumn meeting minutes for Oregon Mosquito and Vector Control Association

- 1) Dr. Debess asked if we could get *Aedes Vexans*
- 2) Columbia County agreed to get *Aedes Vexans* eggs and larvae – Guy & Chris will try
- 3) Apply for other funding, map *Aedes Egypti* and *Albopictus*
- 4) Lane County Vector Control capacity
- 5) Dr. Debess will provide BG Sentinel traps.
- 6) Dr. Debess asked if the association would start collecting ticks from veterinarians or from the field so Oregon could map and identify tick species.
- 7) The Association thanked the people going to Washington Days to protect our interests and lobby for funding.
- 8) When you get contract get badges ready to ask for more money
- 9) Traps are 235 dollars each. Batteries 50 dollars each
- 10) District updates educational outreach Matt and Emily.
